SCRA-LED PDES, INC. WELCOMES DASSAULT SYSTÈMES  
French Company Joins Consortium

Charleston, SC – July 2, 2013 – SCRA today announced that Dassault Systèmes has become a member of its PDES, Inc. consortium. Located in Vélizy-Villacoublay, France, Dassault Systèmes is the world leader in three-dimensional (3D) design software, 3D Digital Mock Up and Product Lifecycle Management solutions. Since its inception in 1981, Dassault Systèmes, “the 3DEXPERIENCE Company” has helped its customers optimize the creation of products and comprehensive experiences.

SCRA leads the consortium, providing program management, financial and contracting services. The PDES, Inc. consortium has 26 member organizations worldwide from industry, government and academia. Since 1988, PDES, Inc. has accelerated the development and use of model-based standards for the Digital Enterprise. Its initiatives include model-based engineering, model-based manufacturing, model-based sustainment, data exchange and standards development and testing.

First used to design complex shapes, the 3D design and process management capabilities Dassault Systèmes offers make it possible to design and manufacture full-fledged industry experiences. Dassault Systèmes’ industry solution experiences foster social innovation, expanding possibilities for the virtual world to improve the real world. The company brings value to over 170,000 customers of all sizes, in all industries around the globe. Additional information about Dassault Systèmes can be found at http://www.3ds.com.

About SCRA
http://www.scra.org/

SCRA is an applied research corporation with over 30 years of experience delivering technology solutions with high returns on investment to federal and corporate clients. To fulfill our mission, SCRA has three sectors: Our Technology Ventures sector helps early-stage companies to commercialize innovations and create jobs, our Applied R&D sector manages national and international programs worth over $2 billion in contract value and our R&D Facilities sector builds and manages research facilities that include wet labs, secure rooms for sensitive work and advanced, high-tech manufacturing shops. Multiple economic impact studies show SCRA’s cumulative output on South Carolina’s economy to be over $15.3 billion.
